Group number: 01

Project title: Visualization of Earth Modeling System (Project 1)

Client &/Advisor: Prof. Johnny Wong and Prof. Chaoqun Lu

Team Members/Role:

Kellen Johnson – Team Communication Leader

Anish Kunduru – Team Leader

Julio Salinas – Team Concept Holder

Eli Devine – Team Webmaster

o **Weekly Summary (Short summary about what you did this week)**

During this week, we were able to meet for the first time and introduce ourselves. We also were able to schedule a meeting with our advisor / client, which will be Wednesday, 9/14 at 10 am. In a short email, we were instructed that our assignment would revolve around being able to display models for the client. Much more will be instructed Wednesday.

o **Past week accomplishments (please describe as what was done, by whom, when)**
- Kellen Johnson: Coordinated first team meeting (9/7).
- Anish Kunduru: Setup an online repository for team to share documentation (9/11).
- Travis Evers: Coordinated first meeting with client (9/8).
- Eli Devine: Coordinated with team to setup first meeting (9/7).

o **Pending issues (if applicable)**
- Travis Evers: unsure if he will be still assigned to the project once Monday is over. Is still in discussions with the department on whether or not he can do an individual project.

o **Individual contributions**

NAME	Individual Contributions	Hours this week	HOURS cumulative
Kellen Johnson	Coordinated first meeting with teammates.	1	1
Anish Kunduru	See above.	1	1
Travis Evers	Sent email to client / coordinated first meeting with client / advisor.	1	1
Eli Devine	Coordinated with team to setup first meeting.	1	1

o **Comments and extended discussion**

We look forward to meeting with the client to get a further explanation of the project, and cannot wait to start brainstorming once the meeting has concluded.

o **Plan for coming week (please describe as what, who, when)**
 - Kellen Johnson: Brainstorm ideas for project design. Coordinate / keep track of ideas during next group meeting. Keep track of individual performance. Do some background research for past examples of similar projects. Have first touchpoint with client.
 - Anish Kunduru: Will meet with the advisors next Wednesday at 10 am to discuss further details about the project. In a group meeting later this week, we will determine the best course of action moving forward with regards to implementation details and build environment.
 - Travis Evers: After meeting with the advisors start developing and architectural framework for the server backed and the way we are going to display the data. Without more detail on deliverables this would be impossible to deliver accurately.

- Eli Devine: Meet with advisors on Wednesday and meet with the team to discuss how to start the project. Brainstorm ideas for the Web design and begin.

  o **<u>Summary of weekly advisor meeting (if applicable/optional)</u>**

  Due to our tardy project assignment, we were unable to meet with the advisor before this document was due. Our first meeting is scheduled for Wednesday (9/14) at 10 am.
